HOME-RAIL LTD.

We would like to take this opportunity, to thank your company for a great job done on our new aluminium fence.

Eyles worked his butt off building it, and we appreciate all the hard work he put into it.

Thanks to my neighbour Judy for changing our minds from building a treated lumber fence which was our intention.

No more painting and a real sharp looking fence surrounding our yard. We have had a number of compliments about the fence, hope they lead to further business for you.

Yours sincerely

Bill & Barb Bishop

P.S. The birds helped rot my other fence with their mess. One squirt of the pressure hose and it's gone.
